

ZRG-F

Laser with \varnothing 40mm

Z-LASER

- Green laser with power stabilisation by feedback photo diode
- Large cooling surface for optimal heat dissipation
- Integrated wide range power supply with high noise immunity
- Focusable (tool adjustable)

Specifications

Output Power/Wavelength	1 to 60mW, 532nm
Housing/IP code	Aluminium, powder coated, head: aluminium black anodised/ IP 64
Case temperature	0°C to +35°C
Supply voltage	90 to 265VAC
Electrical connection	mains plug

Electronics

Laser driver	APC with current limiter
Supply	power supply with high noise immunity (overvoltage cat. III, burst and surge resistance level 4)
Modulation	none
Intensity control	none
Available optics	Ig90, Ip, L90, DOE
Focusable	(tool adjustable)

Accessories*

Power Supply	integrated
Mountings	H0-40, H2-40, H6-40, H8-40,
Auxiliary mountings	BK, BD, BF
Manual or motor driven displacement systems	LS/LW, ZES
Accessories for optics	AK40, LB40, LZB

* for details please refer to detailed data sheets
